

NOTICE

Notice for purchase the equipment i.e. GeneXpert XVI-16 system (a proprietary item) Article under Rule-166 of GFR

The Department of Microbiology is going to purchase an equipment named GeneXpert XVI-16 system (a proprietary item) having following detailed specifications attached at "A".

As per knowledge of the Department of Microbiology, the abovesaid equipment is only manufactured 904, Caribbean Drive, Synnyvale, CA 94089 USA and the authorised Indian distributor is M/s CEPHEID INDIA PVT. LTD. ACORN WAREHOUSE AND LOGISTIC PARK, W 6-B, 68.30 KMS, N.H.8, Kapriwas and Malpura, Tehsil-Dharuhera, District-Rewari (Haryana). A copy of specifications and quotation are attached herewith.

In case there is any other OEM for the abovesaid equipment/article then they are requested to submit their proposal to the Director Principal, Govt. Medical College & Hospital, Sector-32, Chandigarh through e-mail dpgmch-chd@gmch.gov.in/hard copy latest by 25.07.2020 failing which it will be presumed that there is no other firm who manufacture the above said equipment and purchase will be proceed and finalized from the available source.

(Dr. Jagdish Chander),
Professor & Head

Specifications for GeneXpert-XVI-16-L

1. The System should be a fully integrated and automated Real Time PCR instrument which should include the extraction of nucleic acids, amplification and detection in a single step.
2. No human intervention required in between any of the PCR step of extraction of nucleic acid, amplification and detection.
3. The System should work on the self-contained test cartridge which carries all the necessary components to carry out the PCR test. The cartridges should be single-use disposable units.
4. They System should be controlled through stand-alone laptop.
5. The System should have at least 16activemodule which can be independently used and controlled for any test cartridge.
6. The System should have 6 Optics Channels for detection with the dye detection limit <1nM
7. Each Active Module should have Solid State heater and forced air cooking.
8. Ramp rate-Heating : 10°C/second from 50°C to 95°C. Cooling : 2.5 °C/second from 95°C to 50°C.
9. The System should have the endorsement of WHO.
10. The System should be CE-IVD and US-FDA for diagnostic use.
11. The System should include built-in (quality) control for all test steps.
12. The System should be able to perform on-demand test run and should have random access.
13. The System should be easily connected to LIS/HIS if required.
14. The System should require no special (lab or PCR) environment to operate effectively.
15. The System should require minimal expertise to operate and run and to report the results.
16. The System should have different tests available to use-MTB/RIF Ultra, HIV-1 Viral Load, HBV Viral Load, HCV Viral Load, M²3/MTB DR testing, BCR-ABL, HPV, Xpert SARS-CoV-2, etc.
17. The BIS Certificate should be provided.
18. The specifications are Tailor made.
19. The rates for the consumables should be frozen for one and extendable upto ten years as per requirement cost of 1 kit is Rs. 22142/- if the test range is 16 test, we require 2 kit amounting to Rs. 44,285/- (cost per year Rs. 16164025/-). Cost of 7 kit if the test range is 64 test per day is. Rs. 154994/- (Rs. 56572810/- per year). The quantity of consumables may be increased/decreased at the time of purchase.
20. CMC for 5 years and warranty also for 5 years.
