"REVISITING INFECTIONS PREVALENT IN

NORTH WEST REGION"

Saturday, 3rd September, 2016

Venue:
Auditorium, Sarai Building,
Government Medical College Hospital
Sector-32, Chandigarh

E-mail ID: nwiamm2016@gmail.com
Invitation

Dear Colleagues,

Greetings from the City Beautiful!

This gives us immense pleasure to invite you to the Continuing Medical Education (CME) Programme of the North-West Chapter of the Indian Association of Medical Microbiologists (NW-IAMM 2016) themed as, "Re-visiting Infections Prevalent in North-West Region" organized by the Department of Microbiology, Government Medical College Hospital, Chandigarh on 3rd September, 2016 (Saturday).

The proposed CME is being conducted with the aim of providing comprehensive coverage of the subject with focus on postgraduate teaching and learning. There will be interactive sessions on prevalence, diagnosis and treatment of infections prevailing in North West part of our country, few of them being leprosy, scrub typhus, neurocysticercosis, mucormycosis, polio and dengue. This CME will bring together Microbiologists and Clinicians for joint discussions. It will not only impart knowledge but will also provide an opportunity to meet and interact with distinguished speakers.

This time the regional chapter CME is being organized in Chandigarh, a prosperous and prestigious green city designed by Le Corbusier which offers numerous tourist attractions to savor upon, few of them being Sukhna Lake, Rock Garden, Rose Garden, Sector-17 Market and so on. Despite of its modern facade, at heart Chandigarh is quite traditional.

A warm reception awaits you on 3rd September 2016. We eagerly look forward to welcome you to the City Beautiful and promise you an academically profitable and socially enriching experience during your stay with us. Please feel free to contact us for more details.

With warm regards,

Dr. Jagdish Chander
Organising Chairperson
