Dear Sir/ Madam,

Based on the interactions with the Project Proponents and Union Ministries/State Governments during PMG meetings, two lists of DOs/DONTs for Nodal officers of Sponsoring/Recipient Ministries as well as for Project Proponents have been compiled with the approval of Additional Secretary (PMG). It is requested to kindly circulate the list to all Project Proponents in your Ministry/Department and other officials concerned with PMG issues/projects. Comments and suggestions for improving

more than one district, a separate issue may be uploaded for each district.

5. The issue should be narrated/described briefly and it should be ensured that a plain reading of the issue provides a clear understanding about the difficulty/delay being experienced and the underlying reason(s) for the delay.
6. Every project requires to be sponsored by a Ministry/Department known as Sponsoring Ministry/Department. A Sponsoring Ministry/Department is the agency which is responsible for the administration of the sector pertaining to the project. A sponsoring Ministry by sponsoring a project recommends the project for resolution through PMG.
7. A Recipient Agency should be selected for every issue from the drop down menu viz. a State Govt. or a Central Ministry/Department. The Recipient agency is the agency which has to grant/accord final approval or where the issues are pending.

—Project Monitoring Group was setup in the Cabinet Sectt. to track stalled investment projects0006-05.08.2016.jpg

8. Each issue should be classified into a category (type of issue such as Environmental clearance or land acquisition or Right of Way) to be selected from drop down menu.
9. In case the project encounters any new issue which needs resolution, it should be added as a separate new issue. New Issues can be added to the projects, even after a project has once been fully resolved on PMG Portal.
10. Many a times, the Project Proponents tend to raise new issues during the course of a PMG meeting without first uploading those new issues on PMG portal. PPs should invariably upload all new issues on PMG portal before they can be considered for resolution during the PMG meetings.
11. After all the issues of a project have been fully resolved/addressed, the Project Proponent should provide a feedback on the functioning of PMG Mechanism through PMG Portal.
